Complete Care Center Expands Program to Help Uninsured Patients

HealthSharePlan offers affordable access to quality medical care

GRAND BLANC, Mich. (March 23, 2009) – Complete Care Center, a provider of emergency and family health care, has expanded its unique program designed to bring affordable, quality healthcare to uninsured individuals and families.

HealthSharePlan membership, originally introduced as Care Card Membership™, has established strong alliances that include substantial discounts on dental, vision, chiropractic care, surgery, nuclear testing and other health-related services through well recognized and highly qualified providers in the area.

“HealthSharePlan membership is not an insurance plan,” said Dr. Roland Tindle, D.O., president and CEO of Complete Care Center. “Our program offers uninsured patients with office visits as low as \$10 that includes lab tests, x-rays and other services delivered by highly trained doctors, nurse practitioners and other medical professionals.”

More information about HealthSharePlan membership, which is administered and delivered only through Complete Care Center, is available on the web site www.HealthSharePlan.com.

“With rising unemployment as well as many small business owners unable to afford health insurance for themselves and their employees, our program provides a very viable alternative to individuals, families and businesses,” added Dr. Tindle.

HealthSharePlan membership can be combined with catastrophic health care insurance to give you peace of mind for medical emergencies and life threatening illnesses.

Data from the U.S. healthcare insurance industry indicates that 90 percent of all medical needs are for non-catastrophic and non-hospital care, which according to Dr. Tindle, HealthSharePlan membership is specifically designed to cover.

Individuals can sign up for as little as \$39 a month to join Complete Care Center's HealthSharePlan membership and \$10 office visits. For more information, call toll free 888-862-7719 or visit www.HealthSharePlan.com.
